ABOUT THE INDICATOR

In December 2014, ImmoStat launched a new indicator about average rent incentives in the Greater Paris Region. This new publication is released one month after the others. It is designed to help Real Estate professionals gain a better understanding of rent levels.

The level of rent incentives is based on new lettings for offices greater than 1,000 sqm that took place in the Greater Paris Region over the last 12 months. It takes into account rent free periods as well as capital expenditures and step rents.

ImmoStat delivers analysis about rent incentives with all possible details by sectors, letting size, as well as cities with a record that goes back to Q4 2012.
